Increased Japan Investment Activity in the US: A Positive Development for Both Nations

Japan corporate investment / M&A activity in 2015 occurred at a record level high crossed a wide range of industries and occurred in a number of states. The discussion will be cross-industry sector both large and SME company focused. Emphasis will be placed what Japan based firms consider when making investment decisions and what our region can do to attract more investment from Japan.

Thursday February 25, 2016  3:00PM
with cocktail reception to follow
